VelaSmooth

VelaSmooth is the first non-surgical, non-invasive cellulite reduction system that is FDA cleared. VelaSmooth™ features the revolutionary eLos (electrical-optical synergy) combination of Bi-Polar Radio Frequency (RF), infrared light energies, plus negative pressure and tissue manipulation. Vacuum and specially designed rollers manipulate and smooth out the skin to facilitate safe and efficient energy delivery. The combination of infrared and conducted RF energies increases oxygen to the cells by heating the skin. This increases the metabolism of stored energy thereby shrinking the size of the fat chamber.

The result: A smoother appearance of the skin.

Single Treatment	\$300
10 Treatment Package	\$2,750
15 Treatment Package	\$3,850
20 Treatment Package	\$4,400

(Pricing per zone)
